Church "House of Grace" was founded in 2010 by shepherds Dmitry and Elmira Brodkin in the city of Beer Sheva. Our ministry is based on the study of the Torah and the New Testament, serving the poor people and the children of war. We also hold a canteen twice a week and distribute clothes. The main goal of the Church is to help repatriates and return Jews to their homeland!

THE HOUSE OF BREAD

We preach the gospel; feed the poor, help in the social system. We try to fulfill the Lord's will that basing on the revelation and salvation of Israel. We believe that God gives us only what we can handle and with all the obstacles we continue to serve the Lord and the people for His praise.

The Lord supports us in the spiritual growth of the congregation.

"Pure religion and undefiled before God and the Father is this, To visit the fatherless and widows in their affliction, and to keep himself unspotted from the world." James 1:27

HELP TO THE HOLOCAUST SURVIVORS

We continue to give support to the veteran's WWII.
We are glad that we can serve the elders according to the commandments of the Lord. As it is written, help the elders. We help to draw up documents, distribute first aid (clothes and household appliances), distribute food cards.

THE BIBLE COLLEGE

We believe it is important that the community grow in the Word of God and become stronger through teaching. Education is funded by the Church

ASSISTANCE FOR REPATRIATES

We help to draw up documents, find housing, distribute first aid (clothes and household appliances), if a person is in great need, we help financially. We distribute food cards to all repatriates for the first year.

ORPHANS

We help children in the orphanage, distribute first aid (clothes and bread), distribute food cards.

REHABILITATION CENTER

Since we had little room for this ministry and couldn't accept many people, we began to cooperate with the Ashkelon center. Our joint work takes place in peace and love. We believe and are waiting for the opportunity to build or buy a building for the center, as well as the implementation of the kibbutz project. We are conducting outpatient treatment, meeting and preaching the gospel of liberation.

Kibbutz Project

The concept of our project is to settle down in the Negev desert and develop and create our communities in a friendly environment. We want to grow organic fruits and vegetables there without any additives. Besides that, we want to build day cares and schools with the vision of implementing messianic Jewish values since the regular schools in Israel lost this meaning or are not strict with such education. We want to connect this project with the project of “Let My People Go” whose goal is to help new repatriates to settle down in our kibbutz and better acclimatize in the Holy Land. We need to acquire the land in order to make these projects a reality, because the government of Israel does not see to the division of lands for kibbutz developments anymore. They want to regulate already existing settlements. However, we want to populate the desert by God’s word. This is the reason why we are interested in buying the land that was mentioned before. For this reason, our accounts will be audited. Without the down payment we cannot participate in the auction. So please, if you see this project as an important one and your hearts are ready, join us to restore these ancient places as it is written (Isaiah 32:14-18) “The fortress will be abandoned, the noisy city deserted; citadel and watchtower will become a wasteland forever, the delight of donkeys, a pasture for flocks, till the Spirit is poured on us from on high, and the desert becomes a fertile field, and the fertile field seems like a forest. The LORD’s justice will dwell in the desert, his righteousness live in the fertile field. The fruit of that righteousness will be peace; its effect will be quietness and confidence forever. My people will live in peaceful dwelling places, in secure homes, in undisturbed places of rest. Please, join us in prayer (spiritual help) as well as in mobilization of physical help.

Project “Let My People Go”

What is the importance of this project? There are governmental agencies that help Jews to return to Israel. They offer programs to locate Jews around the world. However, they create obstacles to enter Israel for those Jews who believe in Jesus Christ. This is why, when we meet people, we explain how one should behave and work with this agency in the right way. Also, there are some agencies offering loans, allegedly without interest. However, in a few years, people who got loans through them, ended up in too much debt. Another example: some agencies lease apartments through their own brokers, who charge above market rent, and, at the end, profit through lying to the repatriates. All these and other problems create a distorted picture of Israel and trigger deep disappointment among other repatriates. This is why many Jews moved back to the country they came from and don't even want to hear about Israel anymore..! We see this project as an effective tool for spreading God's vision and trust and prevention of problems for repatriation in Israel. Our goal is to help Jews to come back to their mother land and acclimate to the Holy Land. Through investments, Jewish people can return to the heritage of their land. We see it as follows: 1. Meetings with Jewish communities and their families for providing general aid: a. Personal help in explanation of the process of repatriation into Israel: how to act with Jewish agencies and what plans are the best in the process of repatriation; how to fill out forms; how to rent apartments; where to address for aid; and how to adapt in Israel. b. Educational program: to learn and fall in love with Israel. The view from inside of Israel, the beauty and prophetic epistles of the Bible. 2. Celebration of traditional Jewish holidays and teaching people to love Israel. 3. Control of repatriation. 4. Preparation and hosting seminars with Jewish families in communities outside Israel, explaining the meaning of our project.
